DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114 was filed in this application after appeal to the Board of Patent Appeals and Interferences, but prior to a decision on the appeal. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on May 20, 2004 has been entered

2. Claims 19-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The preamble of the claims states that they are process claims dependent from method claim 18. This appears to be in error since claim 18 is a product claim.

3. Claims 16-30 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-8 of U.S. Patent No. 6,419,789. Although the conflicting claims are not identical, they are not patentably distinct from each other because of reasons given in the Office Action, paper No.5.

4. Claims 16-30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dasgupta (5,318,669) in view of Ostendorf et al (5,397,435) or Van Phan et al (5,437,766).

The claims are rejected for the reasons given in the Office Action, paper No. 5.

5. Applicant's arguments have been considered but are deemed unpersuasive of patentability. The Arguments are based on the alleged showing of unexpected results contained in the Worry Declaration. The comparative examples are based on commercial paper towels. It is not known whether or not the comparative examples represent the closest prior art, Dasgupta.
